---

This question paper has 17 pages, an HTML tag sheet, an input mask character sheet and an information sheet.

---

**INSTRUCTIONS AND INFORMATION**

1. This is a **practical examination**.  
If you **complete** the examination **early**, you **may not leave** the examination room.  
**Wait** in the examination room until all **administrative tasks** are **completed**.  
**All examination rules** must be **followed** in the examination room.
2. Learners who **work** on the **network**:
  - the **data files** have been **loaded** on the **system**.
  - **follow** the teacher's **instructions** at all times.
3. Make **sure** that **all your files** are **saved** on the network/computer.
4. Make very sure that **all files can be read**.  
Do **NOT save unnecessary files/folders**.  
Do NOT hand in duplicate answer files/folders.  
Do **NOT delete any original files that you did not work on**.
5. The information sheet **MUST BE COMPLETED AFTER THE EXAMINATION SESSION**.  
**Give it to the invigilator** at the end of the examination.
6. A **copy** of the **master files** will be **available from** the **invigilator**.  
Should there be **any problems** with a file, you may **ask another copy** from the invigilator.
7. This question paper has **SIX questions**.  
**Answer ALL** the questions.
8. **Read each question before answering** or solving the problem.  
Do **NOT do more** than what is asked by the question.
9. Make sure that you **save each document**.  
**Use the file name given** in the **question paper**.  
**Save your work regularly**.  
This will keep your work protected against power failures.
10. You may **NOT use** any **material**.
11. **Accurate**<sub>(perfect/correct)</sub> **answers** are **important**.
12. The **regional settings** must be set to **South Africa**.  
**Make sure** that these **settings** are correct:
  - **date and time** settings
  - **number** settings
  - **currency** settings
  - use **English (South African)** for **word processing** documents
  - the **paper size** must be **A4 Portrait**

The question will tell you if you must use another paper size.

  - use **centimetres** as the unit of measurement

13. In **word processing** questions, **set the language to English (South Africa)**.  
The paper size is A4 Portrait, unless stated otherwise.  
**Use centimetres as the unit of measurement.**
14. See that the **Developer tab** and **Ruler** are **activated**.
15. Make sure that the **decimal symbol** is set as a **full stop ('.')**.  
The **list separator** must be set as a **comma (',')**
16. **Use formulae and/or functions** for ALL **calculations** in questions about **spreadsheets**.  
Use absolute **cell references only** where necessary to **make sure** that **formulae** are **correct** when you copy them to other cells in a spreadsheet.
- NOTE:** All formulae and/or functions should be inserted in such a manner that the correct answer will still be given even if changes are made to the existing data.
17. You may **NOT use** a **word processing** program e.g. Word to answer the **HTML question**.
18. The **examination data folder** contains the **files listed below**.  
**See that you have all the files before you begin** with this examination.

 1_10 biggest dams in South Africa	Microsoft Word Document
 2_Brochure	Microsoft Word Document
 2_Logo	JPG File
 3_Dams	Microsoft Excel 97-2003 Worksheet
 3_Map of SA Dams	JPG File
 4_SA Top 50 Dams	Microsoft Access Database
 5_Dam Picture	JPG File
 5_Dams	Microsoft Edge HTML Document
 6_Certificate of Achievement Merge	Microsoft Word Document
 6_Merge Spreadsheet	Microsoft Excel Worksheet

**SCENARIO**

A group of your **CAT Grade 12 learners** are involved in your **school magazine's project** on **major dams** in **South Africa**. They are **required**<sub>(asked)</sub> to **create a school newspaper, forms** and other **documents**.

They are **given computers** with all the **necessary**<sub>(needed)</sub> **software**.

**QUESTION 1: WORD PROCESSING**

A document was **prepared** about this **project**.

Open the **1\_10 biggest dams in South Africa** word processing **document**.

1.1 **Format** the **title** of document **'10 biggest dams in South Africa'** as follows:

1.1.1 The **title** must be in a **text box filled** with the **gradient shape fill linear down** (3)

1.1.2 The **text box size** must be **3 cm high** and **15 cm wide** (1)

1.1.3 The **text box** must also have a **3pt red border** (2)

1.2 **Find** all the **occurrences**<sub>(places)</sub> of the **word 'Mzansi'** in the document and **replace** it with the **word 'South Africa'** in **small caps**. (2)

1.3 **Find** the **picture** under the **heading '1. Gariep (5,340,000 megalitres)'**.

- **Add** an **automatic caption** with a **new label 'Picture'** and **display** the **caption below the image**.
- **Add** the **captions** to the other **two pictures** in the **document**. (4)

1.4 **Modify**<sub>(Change)</sub> the **'Heading 1'** style to be **bold** with **font size 19**. (2)

1.5 **Find** the **heading ('4 Sterkfontein 2,616,000 megalitres)'** and the **paragraph underneath it**.

- **Change** the **paragraph settings** to **display** the **heading** and **paragraph together** and **not split over two pages**. (2)

1.6 **Find** the **website information** at the **end** of the **document**.

- **Create** a **website source** and **only add** the **name** of the **website** and the **URL**. (3)

1.7 **Find** the **word 'shoreline'** under the **heading '5. Vaal (2,613,500 megalitres)'**.

- **Use** the **proofing tools** of the **word processor** to **insert**<sub>(add)</sub> a **synonym**. (1)

1.8 **Modify**(Change) a **text watermark** in the **document** as follows:

- **Change** the **text watermark** 'Top Dams in SA' to any **WordArt** of your **choice**.
- **Change** the **shape** of the **watermark** to a **Button (Curve)** and the **font type** to **Arial Narrow**.

(3)

1.9 **Insert** any **Outline Circle page numbering style** in the **page footer** as follows:

- **Align** the **odd page numbers** to the **left** of the **footer**.
- **Align** the **even page numbers** to the **right** of the **footer**.

(4)

[27]

**QUESTION 2: WORD PROCESSING**

A **brochure**<sup>(booklet)</sup> was **created** in **Word** to **create awareness** about the **different dams** in **South Africa**.

Open the **2\_Brochure** word processing document.

- 2.1 **Format the brochure** with a **'two colour gradient fill'** effect.  
The **two colours** must be **red** and **orange**. (3)
- 2.2 **Replace the picture** in the **third column** with the **'2\_Logo.jpg'** image found in your **examination folder**.  
**Ensure** that the **image fits** the **previous picture**. (3)
- 2.3 **Insert the name 'SA Dams'** in the **company name control**. (1)
- 2.4 **Insert a date field** to the text **'insert date here'** in the **format MMMM yyyy**. (2)
- 2.5 **Insert a relationship SmartArt graphic 'Basic Pie'** and **type** in the **three names** of the **dams** as **provided** on the **brochure**.

- 2.6 **Ensure** that the **font** of the **paragraph** under the **heading '3 Sterkfontein Dam'** is the **same** as the **font** of the **other paragraphs**. (1)

**[13]**

**QUESTION 3: SPREADSHEET**

Statistical information about the dams in South Africa is provided (given) to learners.

Open the 3\_Dams spreadsheet and work in the Summary worksheet.

3.1 Merge and centre the cells A1 to N2 and centre data vertically. (2)

3.2 A value, attempting to display the current time, appears in cell A3. Replace this value with a function that will automatically display the current time only. (1)

3.3 Each dam has a specific code.

Insert a combination of functions in cell A5 to create a code as follows:

- The river name of the dam (Column D).
- Followed by the first three letters of the dam (Column B).
- Followed by the random three-digit number. (5)

3.4 Insert a function in cell C56 to determine the second oldest dam in South Africa. (3)

3.5 Insert a function in cell F58 to calculate the number of dams in the Eastern Cape. (3)

3.6 Use a function in cell H60 to calculate the number of dams in Free State that are more than 500 m long. (5)

3.7 Insert a function in cell J62 to calculate the total capacity of all the dams in the Eastern Cape. (4)

3.8 The dams are categorised according to their capacity. If a dam is:

- Greater than 4 million  $10^3 \text{ M}^3$ , then the dam is a big dam.
- Smaller than 1 million  $10^3 \text{ M}^3$ , then the dam is a small dam.
- Otherwise, the dam is a normal dam.

Insert a function in cell J64 to determine which type of dam is the Gariep Dam (J5). (5)

3.9 Use a spreadsheet function in column H and apply a 3-symbol uncircled indicator on the information provided.

The indicators must show the following:

- The value greater than 80 and
- the value less than 40. (5)

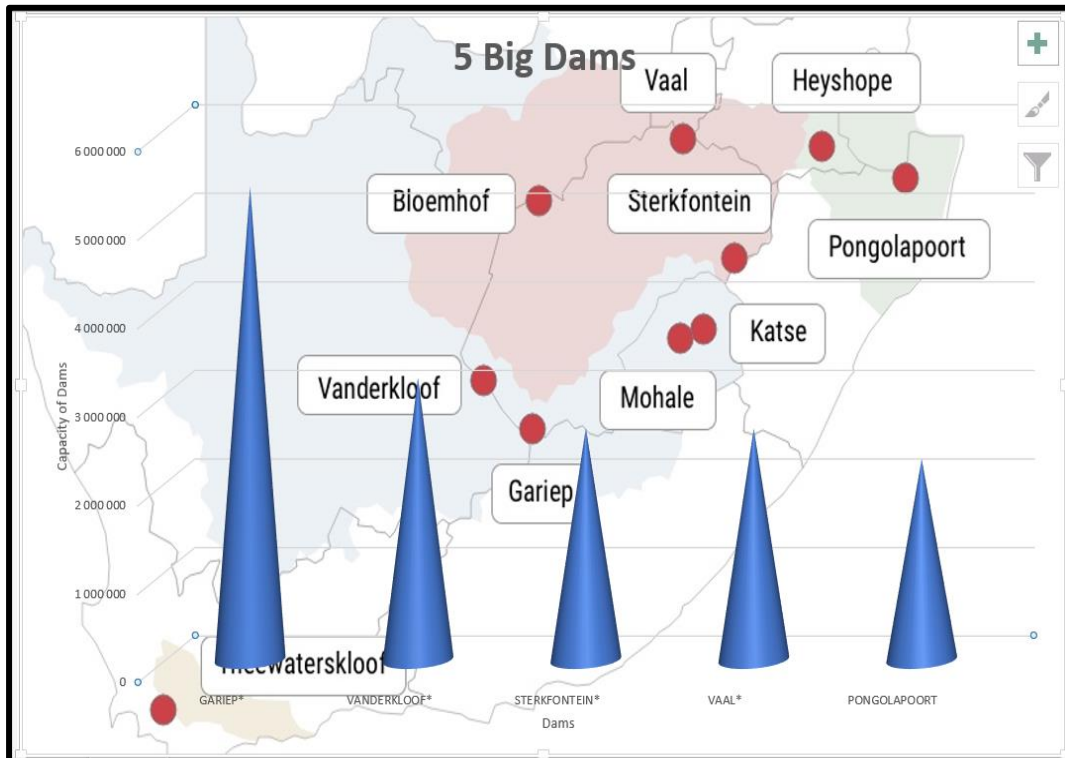

3.10 Work on the Subtotal worksheet

Use the SUBTOTAL feature to display the average capacity of each province. (3)

Work in the **Graph Data worksheet**.

3.11 Create the **graph** using the **data** in the **Graph Data sheet** as shown below.

- Use the 'Map of SA Dams' picture.
- Insert a title and name for both axes.
- Move the graph to a new sheet called **My Graph**.

(8)  
[44]

**QUESTION 4: DATABASE**

A **database** was created to capture all the **data** regarding the **Top 50 Dams** in **South Africa**.

Open the **4\_SA Top 50 Dams** database.

4.1 **Format** the **Magazine Compilers** table as follows:

4.1.1 **Set** the **Surname** field to **50**. (1)

4.1.2 **Ensure** that **only** the **vertical gridlines** are **visible**. (1)

4.1.3 **Set** the **field properties** of the **IDNO** field so that the **user** is **forced** to **enter data** in this field. (1)

4.1.4 **Format** the **e-mail** field to display **e-mail addresses** in **lowercase**. (1)

4.1.5 **Create** an **input mask** on the **Password** field to **ensure** that the **user** **inserts** a **password** to open the **computer**. The **password** is **set as follows**:

- **Two compulsory letters**
- **Followed** by a **hyphen (-)**
- **Two compulsory numbers** and **one optional number**
- **Followed** by a **hyphen (-)**
- **Followed** by the **letters "WORD"** (6)

4.2 **Open** the **form Frm\_DamsSA** and **make** the **changes**:

4.2.1 **Use** an **appropriate**(suitable) **setting** so that the **contents** of the **Capacity** field **automatically display** in a **red font colour** if the **value** is **less** than **three million 10<sup>3</sup> M<sup>3</sup>**. (3)

4.2.2 **Insert** a **function** in the **footer** of the **form** to **display** the **current date**. (2)

4.3 **Modify**(change) the query **Qry4\_3** to **display** the following:

- **Select** all **dams** that were **built** before **1970**.
- **Only** **dams** in the **Eastern Cape**.

Note **no other field** must **display** other than those in the **query**. (4)

4.4 Open Qry4\_4 and **modify**<sub>(change)</sub> the **query** to **display** the **following**:

Province	SumOfCapacity_10 <sup>3</sup> m <sup>3</sup>
Eastern Cape	998946
Free State	11932893
Gauteng	2609799
KwaZulu-Natal	4397115
Limpopo	1769493
Mpumalanga	1903601
North West	1614079
Northern Cape	143081
Western Cape	1677738

(3)

4.5 Create a report called rpt4\_5 based on the DamsSA table to display the records as follows: (The screenshot below displays only the top and the bottom part of the report.)

The screenshot shows a report titled 'rpt4\_5' with the following data:

Province	River	Dam	Capacity_10 <sup>3</sup> m <sup>3</sup>
<b>Eastern Cape</b>			
	Indwe	LUBISI	157 900
	Kougha	KOUGA*	128 490
	Mtata	MTATA	253 674
	Sundays	DARLINGTON*	187 691
	Tsomo	NCORA	150 092
	White Kei	XONXA	121 099
			998946
<b>Free State</b>			
	Nuwe Jaar Spruit	STERK FONTEIN*	2 616 950
	Orange	VANDERKLOOF*	3 187 073
	Orange	GARIEP*	5 342 932
	Riet	KALK FONTEIN*	258 274
<b>Northern Cape</b>			
	Vanwyksvlei	VANWYKSVLEI	143 081
			143081
<b>Western Cape</b>			
	(Off-stream)	GREATER BRANDVLEI	474 046
	Berg	BERGRIVIER DAM	130 000
	Berg	BERG RIVER*	126 400
	Olifants	CLANWILLIAM*	123 689
	Riviersonderend	THEEWATERSKLOOF	480 406
	Vogelvlei	VOELVLEI	168 153
	Wabooms	KWAGGASKLOOF	175 044
			1677738
			50

- Sort according to River field.
- Calculate the number of dams.
- Calculate the total capacity of the dams per province.
- Ignore any textbox borders.

(9)  
[31]

**QUESTION 5: WEB DESIGN (HTML)****NOTE:**

- You may **NOT** use a word processing program such as Word to answer the HTML questions.
- An **HTML tag sheet** has been **attached**(attached) for your reference.

A **web page** has been **created** to **show** some of the **biggest dams** in **South Africa**.

**Open** the incomplete **5\_Dams web page** in a **web browser** and also in a **text editor**.

**ONE mark** will be **allocated**(given) for the **correct use** of **tags** and **triangular brackets**.

Your **final web page** should **look like** the **example below**.

## The Big Dams

---

**List of the top 5 dams in South Africa**

The largest dams in South Africa are a must-visit for local and international tourists! See the top 10 biggest dams in South Africa:

- **Gariep** - This is the largest dam in South Africa. It is built near the town of Norvalspoint not far from Eastern Cape and Free State provinces. It's principal purpose is for irrigation, domestic and industrial use as well as for the generation of power. Its height is 88 m, and its length is 914 m, and the concrete used in its construction is about 1.73 million m<sup>3</sup>.
- **Vanderkloof Dam** - The dam was originally called the P.K. Le Roux reservoir before it changed to the Vanderkloof Dam. It is also fed by the Orange and Berg Rivers as well as two streams. It is situated about 81 miles (130 km) away from the Gariep reservoir and is the second largest in the country. Vanderkloof has the highest wall whose height is 108 m and can hold 3,187,557 million m<sup>3</sup> of water.
- **Sterkfontein Dam** - This dam is the third latest reservoir in the country. It is located close to the Harrismith town in Free State and constructed by the Department of Water Affairs. The reservoir was redirected from Tugela River following the shortage of water in Johannesburg in the 1960s and 1970s. It has the second highest wall that measures 93 m (305 ft), and it is the largest earth fill reservoir.
- **Vaal Dam** - This dam is constructed on the Vaal River and is also fed by the Wilge and Klip rivers and Grootspuit, and Molspuit. It is located 77 km south of the OP Tambo International Airport. It is also the fourth largest by water capacity. It has a wall that measures 63.5 m and holds up to 2,609,799,000 cubic metres of water. The surface area is 322 square km. The dam was primarily created to attenuate flooding.
- **Pongolapoort Dam/ Lake Jozini - Pongolapoort Dam/ Lake Jozini** Located about 280 km north-east of Durban, the Pongolapoort/ Lake Jozini is constructed on the Phongolo River which is its sole perennial feeder. The reservoir has a wall whose height is 89 m. Its total water capacity is 2,445,900,000 m<sup>3</sup>.

No	Name of Dam	Town	Capacity 10 <sup>6</sup> m <sup>3</sup>
1	Gariep	Norvals Point	5342932
2	Vanderkloof	Petrusville	3187073
3	Sterkfontein	Harrismith	2616590
4	Vaal	Deneysville	2609799
5	Pongolapoort	Pongola	2267068

[About the picture](#)

Vaal Dam - This dam is constructed on the Vaal River and is also fed by the Wilge and Klip rivers and Grootspuit, and Molspuit. It is located 77 km south of the OP Tambo International Airport. It is also the fourth largest by water capacity.

- 5.1 **Add the HTML code** so that the text **Big dams in South Africa** appear in the **browser tab**. (1)
- 5.2 The heading **The Big Dams** must be **heading 1 style** and be **centred**. (2)
- 5.3 **Change the background** of the **entire website** to **pink**. (1)
- 5.4 **Insert tags** to **display** a **green horizontal line**. (2)
- 5.5 **Insert the image 5\_Dam Picture.jpg** as shown in the **question paper**.  
The **height** and **width** of the **picture** must be **200**. (3)

5.6 **Modify**<sub>(change)</sub> the **list** under the **heading** 'List of the top 5 dams in South Africa' to **resemble**<sub>(look like)</sub> the **list** in the **question paper**. (2)

5.7 **Correct** the **codes** on the **table** so that the table **resembles**<sub>(look like)</sub> the **one** on the **question paper**.

Also **do** the following **changes** to the **table**:

- The **table border** must be **3**.
- Set **table width** to **100%** and
- **Cell spacing** to **5**.
- **Replace** the name "Free State Dam" with "Gariep".
- The **background colour** of the **heading row** of the **table** must be **green** and the **rest** of the **table** must be **yellow** (6)

5.8 **Insert** a **hyperlink** on 'About the picture' that will **link** to the **picture** 5\_Dam Picture.jpg as **shown** in the **question paper**. (4)

[21]

**QUESTION 6: GENERAL**

Use the following files for this question:

**6\_Certificate of Achievement Merge document and 6\_Merge Spreadsheet.**

6.1 The school management decided to award all the learners who worked tirelessly on the magazine.

Open the 6\_Certificate of Achievement Merge document.

6.1.1 Replace the wave shape inserted (put in) at the bottom of the certificate with the basic sun shape.

- Insert the ALT Text Title to read 'Shape'.
- Insert an Alt Text Description to read 'Basic Sun Shape'. (4)

6.1.2 Apply leader tabs at the bottom of the certificate as shown below:

(5)

6.1.3 Use a word processing feature to create letters for all the learners who were regulars in the meetings.

- Insert the Surname and Name fields only.
- Only for those learners who were regulars in the meetings.
- Use the '6\_Merge Spreadsheet' to locate the names of learners that will receive certificates.
- Save the merged document as 6\_Merged. (5)

[14]

**TOTAL: 150**

## ANNEXURE A – HTML TAG SHEET

Basic Tags	
Tag	Description
<body></body>	Defines the body of the web page
<body bg color="pink">	Sets the background colour of the web page
<body text="black">	Sets the colour of the body text
<head></head>	Contains information about the document
<html></html>	Creates an HTML document – starts and ends a web page
<title></title>	Defines a title for the document
<!-- -->	Comment
Text Tags	
Tag	Description
<h1></h1>	Creates the largest heading
<h6></h6>	Creates the smallest heading
<b></b>	Creates bold text
<i></i>	Creates italic text
<font size="3"></font>	Sets size of font, from "1" to "7"
<font color="green"></font>	Sets font colour
<font face="Times New Roman"></font>	Sets font type
Link Tags	
Tag	Description
<a href="URL"></a>	Creates a hyperlink
<a href="URL"></a>	Creates an image link
<a name="NAME"></a>	Creates a target location
<a href="#NAME"></a>	Links to a target location created somewhere else in the document
Formatting Tags	
Tag	Description
<p></p>	Creates a new paragraph
<p align="left">	Aligns a paragraph to the "left" (default), can also be "right", or "center"
 	Inserts a line break
<ol></ol>	Creates a numbered list
<ol type="A","a","I","i","1"></ol>	Defines the type of numbering used
<ul></ul>	Creates a bulleted list
<ul type="disc","square","circle"></ul>	Defines the type of bullets used

Formatting Tags continued	
Tag	Description
<li></li>	Inserted before each list item, and adds a number or symbol depending upon the type of list selected
	Adds an image
	Aligns an image: can also be "right", "center"; "bottom", "top", "middle"
	Sets size of border around an image
	Sets the height and width of an image
	Displays alternative text when the mouse hovers over the image or when the image is not found
<hr/>	Inserts a horizontal line
<hr size="3"/>	Sets size (height) of line
<hr width="80%"/>	Sets width of line, in percentage or absolute value
<hr color="ff0000"/>	Sets the colour of the line
Table Tags	
Tag	Description

<tr valign="top">	Sets the vertical alignment for cell(s) (can also be "middle" or "bottom")
<td colspan="2">	Sets the number of columns a cell should span
<td rowspan="4">	Sets the number of rows a cell should span

## INPUT MASK CHARACTER SHEET

CHARACTER	DESCRIPTION
0	Digit (0 to 9, entry required, plus [+] and minus [-] signs not allowed)
9	Digit or space (entry not required, plus [+] and minus [-] signs not allowed)
#	Digit or space (entry not required; spaces are displayed as blanks while in Edit mode, but blanks are removed when data is saved; plus [+] and minus [-] signs allowed)
L	Letter (A to Z, entry required)
?	Letter (A to Z, entry optional)
A	Letter or digit (entry required)
a	Letter or digit (entry optional)
&	Any character or a space (entry required)
C	Any character or a space (entry optional)
.,:;- /	Decimal placeholder and thousand, date and time separators (The actual character used depends on the settings in the <b>Regional Settings Properties</b> dialog box in the Windows Control Panel.)
<	Causes all characters to be converted to lower case
>	Causes all characters to be converted to upper case to right. You can include the exclamation point anywhere in the input mask.
!	Causes the input mask to display from right to left, rather than from left to right. Characters typed into the mask always fill it from left to right. You can include the exclamation point anywhere in the input mask.
\	Causes the character that follows to be displayed as the literal character (for example, \A is displayed as just A)
