

Eastern Cape Department of Education

Learner Performance Reports for all

Grades

Foreword by the MEC for

Dear Parents,
Teachers,
Learners and
Communities
receive my
warm
Greetings (of

the Season)!

Heartfelt gratitude for the opportunity to present to you the official Eastern Cape Department of Education Learner Performance Reports for all grades on this important day in the calendar of education.

This is the official announcement of the results of the 2012 Grade 12 class, Grades 1 to 11 as well as the Annual National Assessment (ANA) results.

2012 Contextual Factors Achievements & Challenges

With hindsight, the 2012 Academic year was a year of mixed achievements and formidable challenges.

The year 2012, started with the Department faced with some schools without teachers in front of learners.

This was mainly due to

- Non movement of teachers in excess to where they are needed, as well as
- 4500 temporary teachers terminated in December 2011.

The above situation led to the disturbance of tuition at schools by the protest and go slow action by SADTU for effectively the January/February period.

This protest action was rallied around mainly the following demands:

- Dismissal of the Head of Department (HOD).
 - Reinstatement of temporary educators.
- This protest action culminated in:

Education

- COSATU/Provincial Government MOA (on 08 February 2012).
- Appointment of temporary educators in substantive vacancies based on the 2012 post declaration.
- By the end of 2012, the Department had appointed 3 900 temporary teachers. The implementation of SIDD (1) (b) and its challenges was 10 months old in January 2012. Simultaneously, in 2012, we continued with the stabilization of our social support services. The new School Nutrition model introduced in March 2011 was smoothly implemented on the first day of the school year, with funds transferred to schools for implementation.

Scholar Transport also stabilized as a result of its transfer to the Department of Transport. As a result, scholar transport was available to all deserving learners on Day 1 of schooling.

The reorganisation of Support Services contributed to the stability of the system and created space to focus on the core business of quality Teaching and Learning.

With the departure of the previous HOD and the appointment of a new HOD on 24 April 2012, we began to focus on stabilizing governance and management structures of the Department to regulate decision making and accountability.

Serious attention was given to accelerating the LAIS programme. A LAIS Co-Ordinating Committee was instituted, comprising DDGs, Chief Directors and was led by the Acting HOD. This structure developed a LAIS Implementation Plan that entails:

- Extra classes and study groups.
- 143 Vacation/Holiday schools.
- Revision camps and Ilima camps in partnership with the religious sector, Chiefs, Municipalities, Parents and Communities.

Responsibilities

A learner stays in our education system

for an average of thirteen years, starting at Grade R and culminating with Grade 12. The Annual National Assessment (ANA) and Grade 12 results have become critical tools to judge performance of both our system and our learners.

Through examinations, parents, villagers, government and communities should be able to determine the strengths and weaknesses of both learners and the system itself. This will go a long way in helping learners to prepare themselves for their historical responsibilities.

Learners and young people in schools and other institutions of learning have only one duty today, the duty of studying; studying should be seen as a social duty. By discharging that duty, learners shall be paying all debts they may have to society and the heroes/heroines who sacrificed to make possible this present society. All this sacrifice was made to dignify schools and higher institutions of learning in South Africa for poor people, both black and white.

Learners should study more and strive to be better every day as we all walk towards a better future. The future needs technology, culture and knowledge. Self improvement on a day-to-day basis should become a necessity for all of us. Education, Science and Technology form an inseparable triad necessary for a country's development.

Our Education system must not only teach learners academic work but must also teach human values: generosity, modesty, simplicity, solidarity, and respect for humanity, selflessness, patience and courage. It should also teach impatience for injustice.

To those who have passed the examinations, we say they must go on to utilise the opportunities opened up by our country to contribute in building a better life for our people.

To those who could not make it in 2012, we say they must not despair. To make a mistake is not a sin or disgrace. The sin is

to repeat the mistake. By repeating matric you will have a better opportunity to deal with your mistake and improve your performance.

You must know that even great minds like Albert Einstein, the great scientist who is the father of the theory of relativity in physics, repeated his final high school year. He never committed suicide or dropped out of school, but committed himself to repeat and pass his final high school year.

Conclusion

Bantu Bakowethu!!!

Humbly accept this report as an instrument in improving performance, career-pathing and determining progress. It takes a village to raise a child.

Education remains a major contributor in dealing with poverty and economic development.

Indeed, the release of results (this year on 03 January 2012) is an annual function that marks an important date in the calendar of Education in our country.

M. Makupula MPL

MEC: Education

Preface by the Acting Head: Education

I present these results books for 2012 with guarded excitement. We should indeed celebrate the improved achievements of our learners but also recognise that

as the Department of Education in the Eastern Cape we have a long way to go to reach our educational destiny. We should acknowledge that we are moving from a very low baseline, but the Eastern Cape educational train has left the station en route to higher educational achievement for all our learners irrespective of their social, economic and cultural backgrounds. The common purpose of both the passengers and the train operators is to deliver positive educational outcomes.

It is becoming clear that the community of the Eastern Cape does indeed take responsibility for the performance of the education system in the Province. This has been tested during the year 2012 as we maximized participation of our learners and educators in the writing of the Annual National Assessments (ANA). These assessments have highlighted the challenges and the successes we have had in the lower grades. It is obvious that for better performance in the upper grades including Grade 12, a solid foundation of good performance must be laid in the lower grades. It is for this reason that as we move to 2013, the General Education and Training Band (Grades 1-9) will be the main focus our efforts to provide effective teaching and learning. This will mean increased support to schools to ensure a foundation for better results.

The Grade 12 Class of 2012 has been subjected to a number of teaching and learning challenges ranging from shortages of qualified educators in some subjects, community protests and other hindrances to effective learning. The

Department of Education devised new means to support schooling and created a semblance of stability for learners to be the point of focus. Communities have been mobilized through the Quality Learning and Teaching Campaign (QLTC). Amongst other initiatives for 2013 will be to increase accountability for resources provided for teaching and learning, enhanced performance of the schooling sector, and increased authority of the Department to move from "Theory to Action, Policy to Practice".

I wish to thank our learners, educators, officials, and communities in general for the efforts they have made and to assure the broader community that the Department remains committed to further improve achievement so that the Province of the Eastern Cape may hold its head up high in our learning nation.

My best wishes for a happy, prosperous and successful 2013 Academic Year.

Mr. Mthunywa Lawrence Ngonzo

Acting Head: Education

Examinations in the Eastern Cape

1. Introduction

The 2012 cohort of Grade 12 learners is the fifth group to write the National Senior Certificate examination, based on the National Curriculum Statement. As can be expected after five years, the teething problems experienced in the first few years have been resolved and there is a greater maturity of the system. Those learning and teaching in this system have become more accustomed to its demands and expectations and there are fewer surprises when the examination papers are turned over and the examination commences. Officials administering the examination have also become used to the various processes and to the new integrated examination computer system. This is not to say, however, that there are no challenges left. Work remains to be done to produce a completely flawless examination between the different levels of abilities of the candidates. Precautions are taken to ensure that the setting of the individual questions and the subsequent question papers remain absolutely confidential.

2. School-Based Assessment

In addition to the formal examination papers written at the end of the year, candidates are also expected to complete a variety of assessment tasks at school level. As in other grades, these requirements are spelt out in the Subject Assessment Guidelines (SAGs) for each subject and are meant to allow the candidates to work consistently throughout their Grade 12 year and to be rewarded by accumulating marks towards their final result. These assessment tasks cover a wide variety of activities.

All of these components are put together in a formula provided in the Subject Assessment Guidelines to produce the candidate's School-based Assessment mark or SBA. This is a vital component of the candidate's final result and must receive continuous attention throughout the year in order to maximise the advantage to be gained by having a good SBA mark in the bank, so to speak, before the written examination begins at the end of the Grade 12 year. Having a good SBA mark will contribute considerably to a candidate doing well at the end of the year. Conversely, a candidate who does not work consistently throughout the year but expects to redeem his or her prospects in the final examination shall find it challenging to attain a good result. SBA tasks need to be taken seriously and completed fully and on time.

2.1. Moderation of the Results of the written examination

Just as the School-based Assessments of candidates for individual subjects and Learning Areas are subject to scrutiny and moderation, so the results of the written examination are also subject to moderation. To avoid the prospect of being both referee and player, the moderation is not undertaken by the examining body (the DBE), but by UMALUSI. Once the results of the written examination are captured on the computer system, the results of the written examination in each subject are scrutinised by a specially-appointed panel of moderators at UMALUSI.

This moderation is done to ensure fairness and to preserve standards.

2.2. What are the Requirements for a National Senior Certificate?

In order to obtain a National Senior Certificate the learner must:

- 2.2.1. offer seven approved subjects and provide full evidence of School Based Assessment for each subject.
- 2.2.2. complete the programme requirements for Grades 10, 11 and 12 separately and obtain distinct outcomes and associated standards for all the grades.
- 2.2.3. comply with internal assessment requirements for Grades 10, 11 and 12; and the external assessment requirements of Grade 12.
- 2.2.4. achieve at least 40% in three subjects, one of which must be an official language at Home Language level.
- 2.2.5. must achieve at least 30% in three other subjects.
- 2.2.6. provide full evidence of the SBA component in the subject failed.

Subject	Level of Achievement
1 Home Language	40%
1 Home or First Additional Language	2x subject - 40%
Mathematics or Mathematical Literacy	3x subject - 30%
Life Orientation	1x subject less than 30%
3x subjects selected from approved subject list	Evidence of SBA is provided

2.3. Rating Scale

A rating scale is used to summarise achievement. This is the same scale in use in Grades 10 and 11 and which will eventually be used throughout the schooling system when the new Curriculum and Assessment Policy Statements (CAPS) are fully implemented.

ACHIEVEMENT LEVEL	ACHIEVEMENT DESCRIPTOR	MARKS %
7	Outstanding Achievement	80-100
6	Meritorious Achievement	70-79
5	Substantial Achievement	60-69
4	Adequate Achievement	50-59
3	Moderate Achievement	40-49
2	Elementary Achievement	30-39
1	Not Achieved	0-29

2.4.MINIMUM ADMISSION REQUIREMENTS TO HIGHER EDUCATION

It must be emphasised that what follows are the minimum requirements set for admission to Higher Education Institutions (HEIs). HEIs are at liberty to raise these requirements at any time, depending on the number of applicants they receive. They are also at liberty to set their own entrance and placement tests and to set higher requirements for entrance into particular courses or fields of study. Some HEIs do not recognise particular subjects for selection processes into certain study areas. For example, Mathematical Literacy is not recognised in some HEIs for entrance into courses of study involving Engineering and Sciences. Candidates should consult the HEI of their choice to ascertain entrance requirements.

2.4.1. HIGHER CERTIFICATE (HC)

- NSC with minimum of 30% in the Language of Learning and Teaching (LOLT) of the Higher Education Institution as certified by UMALUSI.
- Institutional and programme needs may require additional combinations of recognized NSC subjects and levels of achievements.

2.4.2. DIPLOMA

- NSC with a minimum of 30% in LOLT
- Achievement rating of 3 (moderate achievement (40-49%)) or better in four (4) recognized NSC 20- credit subjects.
- Institutional and programme needs may require additional combinations of recognized NSC subjects and levels of achievement.

2.4.3. Bachelor's Degree

- NSC with a minimum of 30% in LOLT.
- Achievement rating of 4 (adequate achievement, 50 - 59%) or better in four subjects chosen from the recognised 20-credit NSC subjects (which will be known as the designated subject list) below:

Accounting	Engineering Graphics and Design	Mathematics
Agricultural Science	Geography	Mathematical Literacy
Business Studies	History	Music
Consumer Studies	Information Technology	Physical Science
Dramatic Arts	Languages	Religion Studies
Economics	Life Sciences	Visual Arts

3. Statistics for the National Senior Certificate 2012

3.1. Number of Full –Time candidates and Examination Centres

The figures in Table 1.1 and Table 1.2 below provide a comparison of the number of candidates who have entered for the National Senior Certificate (NSC) examinations in the Province this year and last year. It is worth noting that the Eastern Cape has the fourth largest number of candidates for the NSC after KwaZulu-Natal, Limpopo and Gauteng provinces.

Table 1.1

Number of full –time candidates enrolled for NSC in 2010, 2011 and 2012

Year	Number Full-time	Increase / Decrease
2010	68123	
2011	68069	-54
2012	69427	+1358

The number of candidates has therefore increased when compared to 2011.

Table 1.2**Number of Examination Centres 2010, 2011 and 2012**

Year	Number of Centres	Increase / Decrease
2010	907	
2011	918	+11
2012	926	+8

3.2. Challenges

Despite many areas of excellence and a constant improvement in systems and processes through examinations and assessment in the Eastern Cape, there are a number of areas of serious challenge which bear mentioning.

3.2.1. Irregularities

Unfortunately the instances of irregularity in examination and assessment processes remain at an unacceptably high level. Given the high-stakes nature of public examinations, it is not unexpected that some candidates (and sadly their educators) make themselves guilty of dishonesty. It is unacceptable, however, that there are still a worrying number of instances of cribbing and copying during examinations, possibly due to poor invigilation. If proper invigilation was done, candidates engaged in dishonest practices should be caught unless there is collusion between invigilator and candidates. The Department has a zero-tolerance policy for dishonesty.

This year saw an increase in the number of candidates presenting themselves to write the examinations under the influence of liquor. This, inevitably, has a negative effect on the serious candidates in the centre. The Chief Invigilators managed this challenge well and according to National Policy.

3.2.2. Policies not adhered to

Policies are only as good as the paper they are written on if they are not adhered to. If, for example, unauthorised persons are allowed free access into restricted areas, then the policy on security of examination materials becomes unenforceable and ignored, which could lead to a major breakdown. Similarly, if staff members charged with implementing

policy either chose to ignore policy or do not know the policy, their actions become subject to judicial review, which may be both unnecessary and wasteful. Implementation of policies that impact on the credibility of the examination processes such as, Subject Changes, Invigilation and Script Control, must remain a priority for all staff members. Staff training and re-training on policy requirements is a necessity which has been recognised.

3.2.3. Non-Provision of Learner and Educator Evidence to back-up SBA Marks

All educators and candidates are required to keep complete records of all assessments that take place. This does not mean that bulky folders are required to be kept, but during moderation it is a requirement that tangible evidence of learner performance can be produced to substantiate the grades awarded to candidates. It is often the case that when evidence of performance is required schools, educators and candidates are unable to produce it. This leads to an undermining of the credibility of the School-based Assessment mark and to suspicions that educators have not completed learning programmes and that the marks provided are mere guess work. This can have severe consequences for all candidates in the Province as UMALUSI is quite entitled to refuse to certify results as credible and allow them to be released if there is sufficient concern that they may be bogus. Fortunately, this challenge is not widespread in this Province, but remains an area which requires constant attention to ensure that requirements are met.

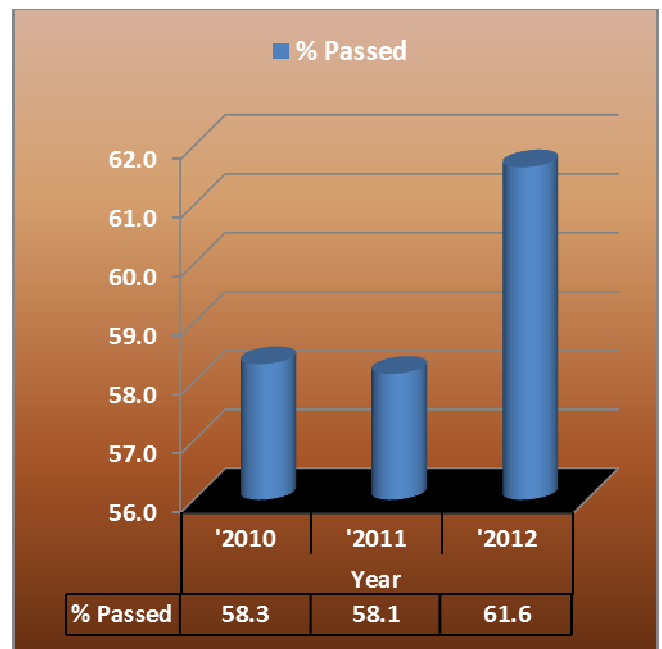

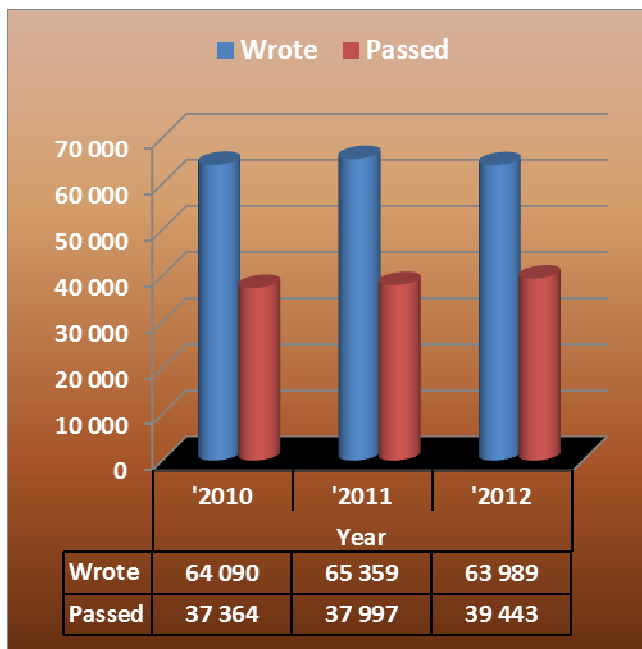

4. Conclusion

The purpose of the Examinations and Assessment Directorate is to deliver a credible, effective and efficient examination and assessment service to its users. This, despite the many challenges the Directorate faces, it has managed to continue to provide in 2012 and will no doubt, continue to provide in the years to come. Our commitment to service delivery and to service excellence remains unswerving.

Working together we can achieve more.
