# FOREWORD

The great gains of the democratic era underscore an improving education system determined to assure quality in basic education, enhance teaching and learning standards and carefully measure progress over time. The cornerstone of this determination has been an impervious goal to profit the children of South Africa with knowledge and skills that translate into economic freedom within a democratically transformed society and to be suitably fit for the modern challenges of the Fourth Industrial Revolution. Hence, the Government of the Republic of South Africa esteems the provision of quality basic education free of discrimination as its apex priority and as a national imperative advanced by clearly articulated milestones in the National Development Plan (NDP) Vision 2030: Our future – Make it work. There is a clear mandate from the NDP for the education department to direct that standards of education provision, delivery and performance of learners be monitored and evaluated annually or at other specified intervals, with the object of assessing progress in complying with the provisions of the Constitution and with national education policy. In this regard, the outcome of the National Senior Certificate (NSC) has since its introduction in 2008 been regarded as the primary indicator of monitoring system progress.

I am honoured to release the 2017 National Senior Certificate (NSC) Schools Subject Report which provides valuable information on the performance of every school in the country in the 11 key subjects. This Report includes subject specific information to assist managers and practitioners in the system with information that would equip them to plan and provide appropriate subject level support to the learners. I have noted the drop in enrollment in key subjects such as Mathematics, Mathematical Literacy, and Physical Sciences. This could be attributed to a rise in the number of part-time candidates and the number of learners who took the multiple examination opportunity (MEO) route and therefore still have some outstanding subjects to complete for their NSC.

I appreciate and acknowledge the hard work, sacrifice and sheer effort made by our teachers, learners, parents, guardians, school managers, district and provincial officials and wider school communities who heeded our call to support the sector's commitment to improve the quality of teaching and learning and learner attainment. In 2017 there was increased investment in the sector to increase the participation of school communities in the strategic interventions that were driven by the 2017 NSLA that aimed to align the key national and provincial interventions that were introduced to add value to teaching and learning in our schooling sector. As in 2016, targeted and focused interventions to improve learner performance in the 11 high enrolment subjects were implemented across all nine provinces, focusing on underachieving schools, schools with more than 100 learners in high risk subjects, schools with novice Grade 12 teachers, and schools with high numbers of progressed learners. There were also targeted interventions for high achievers to improve the quality of their performances in the final examinations. Provinces and districts intensified monitoring of the differentiated subject interventions throughout the year to ensure optimal participation, quality of input over

adequate timeframes, to enable accountability among all stakeholders responsible for operationalizing the 2017 NSLA.

This Report must be read in conjunction with the Diagnostic Report, which provides an in-depth analysis per question for the priority subjects. Together, these reports provide a comprehensive outlook on the performance of the Class of 2017.

**MRS AM MOTSHEKGA, MP**  
**MINISTER OF BASIC EDUCATION**  
**04 JANUARY 2018**

# **1. INTRODUCTION**

This edition of the Schools Report comprises of the 2017 NSC subject results for all schools in every province. These results are consolidated into a single reference document that allows all stakeholders: School Management Teams, School Governing Bodies, teachers, subject advisors and district and provincial education officials, to review, monitor and track subject performance of the schools in their respective local communities. This report provides historical data on the performance of 11 key subjects. In order to enable a comparative analysis, subject performance data for both 2016 and 2017 are provided. This report is a useful resource that can inform the design and implementation of appropriate interventions at school, district and provincial level.

This report should be read in conjunction with the following complementary reports on the 2017 National Senior Certificate examination published by the Department of Basic Education:

- a) The 2017 National Senior Certificate Examination Report;
- b) National Schools Report that presents the overall school results over three years; and
- c) National Diagnostic Report which provides an analysis learner performance in the 11 Gateway Subjects and the 11 Home Languages; identifies areas of poor performance, and recommends appropriate remedial measures in each of the subjects.

Together these four reports aims to provide a comprehensive overview of learner, school and subject performance on the 2017 NSC.

# **2. SCOPE OF THE SCHOOLS SUBJECT REPORT**

The Schools Subject Report presents performance data in the following 11 key subjects: Accounting, Agricultural Sciences, Business Studies, Economics, English First Additional Language (FAL), Geography, History, Life Sciences, Mathematical Literacy, Mathematics and Physical Sciences.

Candidates' performance in these gateway subjects at a national level over the last two years, precedes the summary table of candidates' performance in these subjects in each education district. This detailed set of data is provided to every school to enable them to measure progress made and evaluate reasons for upward or downward performance trends in 2016 and 2017

# **3. UTILISATION OF THE SCHOOLS SUBJECT REPORT**

This report should be used by school managers, subject advisors, curriculum specialists and district planners to analyse a subject's overall performance within a school, and at cluster, circuit or district level. This report helps education stakeholders to identify the specific subjects where performance is poor and to ensure appropriate interventions are introduced. Where subject performance shows an upward trend within a school, circuit, district or province-the stakeholders must seize the opportunity to identify the factors that have contributed to improved performance and consider how these ideas can be shared with schools that are performing poorly. School communities also have the opportunity to identify teacher capacity building needs and invest in this, a review of current equipment and curriculum resource needs is also necessary to ensure that the school is adequately resourced to harness the collective efforts and potential of teachers and learners so that they are motivated to improve upon their 2017 performance in selected subjects.

# 4. SUMMARY OF CANDIDATES PERFORMANCE IN KEY SUBJECTS

## 4.1 NATIONAL PERFORMANCE IN 11 MOST POPULAR SUBJECTS: 2013-2017
